THE PRESIDENTIAL TEAM.

In speaking of the prospects for 1884, the *New York Nation*, a most excellent journal, says: Unless there is a great change of some sort during the next six months, the two great parties of the country will enter upon the next Presidential contest with very evenly balanced chances of success. The elections of this year, as we have had occasion to say, resulted in giving neither party any decided advantage for next year. Under the new apportionment there will be 401 electoral votes in 1884, against 369 in 1880, and 201 will be necessary for an election. If the States were to vote next year as they did in 1880 the Republican candidate will receive 228 and the Democratic 173.

This includes the votes of New York, Indiana and Connecticut, all of which have been carried by the Democrats since 1880, and all of which are doubtful States in every election. Indiana is more likely to go Democratic in a Presidential election than Republican, and New York is as likely to go one way as the other. The division of "sure" States will stand as follows:

REPUBLICAN.	DEMOCRAT.
Colorado.....	10
Illinois.....	22
Iowa.....	12
Kansas.....	7
Maine.....	2
Massachusetts.....	16
Michigan.....	8
Minnesota.....	7
Nebraska.....	5
New Hampshire.....	3
Ohio.....	3
Oregon.....	3
Pennsylvania.....	30
Rhode Island.....	4
Vermont.....	3
Wisconsin.....	11
Total.....	171
Total.	162

This leaves the Republicans 30 votes short of a majority and the Democrats 39 votes short, with the following doubtful States to fight for:

California.....	8	Nevada.....	8
Connecticut.....	6	New York.....	26
Indiana.....	15	Total.....	68

EDITORIAL NOTES.

The Chippewa Indians threaten to make war upon the United States, and have presented an ultimatum. The trouble is caused by the erection of dams at the headwaters of the Mississippi, which the Indians say will ruin their principal source of livelihood—by driving the whitefish from their usual spawning grounds. A commission has given them \$15,000 as damages, but the Indians want \$250,000 every six months, or \$500,000 a year, a sum representing a capital of \$10,000,000.

Dr. Stocker, who has been lecturing in London recently on Socialism, is an old ass, who wants every Christian in England to kill a Jew, and yet this precious fanatic is chaplain to the Emperor of Germany. Dr. Stocker should be fed on salts and senna for a month, and then sent to a lunatic asylum. The man who believes that the "Gospel of Peace" means to kill your neighbor, should not be permitted to run at large.

The controlling issue in the Presidential contest is the very simple one: "Shall the tariff question be discussed or dodged?" If a majority of the Democratic members conclude that it will be the best policy to suppress all debate on the subject, Mr. Randall will be elected. If a majority conclude that the party can take the risk of reopening the question, Mr. Carlisle or Mr. Cox will probably be chosen.

A court-martial is ordered to meet at Fort Snelling for the trial of Captain McKibbin, of the 15th Infantry, on the charge of duplicating pay account, until the hearing of the case is

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

Fight over a Well.

PITTSBURG, November 27. Intelligence was received last night of a bloody riot at the National Gas Mills, Murraysville, Westmoreland county, 40 miles east of Pittsburgh, between the laborers of the Rinal Gas & Fuel Company, resulting in the death of one man and the serious injury of four others. The burning well at that point is claimed by the Pennsylvania Fuel Company and also by Milton Weston, a Chicago capitalist. The former has been in possession. Yesterday a gang of laborers in the employ of Weston made their appearance, armed with shot-guns and clubs. Their intention was to take possession of the well and property surrounding. To reach the well they would be obliged to remove a large pile of lumber. The laborers of the Pennsylvania Fuel Company were digging a trench for pipes. As soon as the object of the invaders became known, C. V. Haymaker, a member of the company, ordered the men out of the trench. They were unarmed, and in order to hold the lumber pile, sat on it in a body. Weston's forces moved forward and ordered the laborers to leave; the latter refused to go, and after threatening demonstrations, the attacking party raised their guns and fired. The assault was unexpected and the result was frightful. When the smoke cleared away, C. V. Haymaker and three others of his party were found lying on the ground; Haymaker was dead, and the other three men were seriously and probably fatally injured. A scene of great confusion ensued; workmen of both parties engaged in a pitched battle, and a man named Klein, belonging to the Weston party, was severely injured and many others slightly. The Weston forces finally put the company's forces to flight, and at last accounts were in possession.

A New Committee.

WASHINGTON, November 27. The Senate, rules have created a new committee on Internal Improvements, to consist of nine Senators, having jurisdiction over all matters relating to improvements of rivers and harbors. The committee on Commerce have left to this committee, the jurisdiction of subjects relating to commerce, shipping, the merchant marine, life saving service and light houses. The new committee on Expenditures of Public Money just created, consists of seven Senators who shall consider such measures tending to economize public expenditures, as shall be referred to it and conduct investigations into expenditure of public money ordered by the Senate, unless the Senate otherwise directs. This work has usually been done by a special committee.

A Miners' Strike—The Murrysville Riot.

PITTSBURG, Pa., November 27. Four hundred miners at the Gauley and Richers mines, struck against a reduction of wages. Intelligence from Murrysville reports everything comparatively quiet. The Weston forces surrendered to the Sheriff, but soon found they were officers and at 3 o'clock the prisoners made a break for liberty and fourteen escaped. Warrants were issued for the arrest of the whole Weston party. They are charged with murder. The inquest is now in progress.

This morning fifteen armed men, belonging to the Weston force, arrived and are now on the ground, but have not attempted any violence. Fourteen of Weston's men who participated in the riot, were arrested and taken to Greensburg, where they are to be given a hearing this afternoon. Both claimants have been notified to keep off the grounds. The feeling is intense, and in favor of the Pennsylvania Co.

Dissatisfied Sailors.
BOSTON, November 27. The steamer Shenandoah is lying in the stream of the navy yard, awaiting orders to sail. She is not likely to get a full complement of officers, for almost every officer who is ordered to her at once endeavors to be relieved. Seamen do not like the prospect of going round the horn in this vessel, and their feelings are greatly intensified by the action of the officers. Sailors claim the vessel to be too heavy. Yesterday the executive officers, Lieutenant Commanders E. B. Thomas, and Lieutenant Flynn were surveyed by the medical officer, and on his report they will probably be relieved. They have only been on board about a week, and their probable removal only makes matters worse in the minds of the sailors.

A Confession of Murder.
DARTMOUTH, N. J., November 27. Mrs. Ellen Long, whose trial was in progress for the killing of Harry Whitemore, 11 years ago, to-day confessed the crime at the instance of her father, Judge Myers of Princeton, who hopes to gain the leniency of the court. She does not tell the cause of the murder, but it is supposed the boy knew of her intimacy with her father.

A Bloody Piece of Work.
MUNCIE, Ind., November 27. Last Saturday Ral. Scott, after a two years separation from his wife, returned to her house, near Eaton, 12 miles north of here, and insisted that she should live with him again. She refused, when he stabbed her to death, then killed one child and took a dose of morphine, from which he died.

The Ford Murder.
LACONIA, N. H., Nov. 27. The town is still greatly excited over the murder Sunday morning. Salmon will remain in jail in Laconia until the hearing of the case is

granted. He appears calm, and speaks only when spoken to. Spots of blood, partly washed off, have been found in Salmon's bedroom, from which the trunk was taken, and blood spots were also found on the sink and upon a cake of soap, showing that the Ford murder was committed, no doubt, in his room, in the upper part of the house. At the inquest Dr. Foster testified that Mrs. Ford's death was caused by a rupture of the heart, induced by pressure upon the chest, perhaps by the knee of a man or woman. Her stomach was found entirely empty, and his belief was that death occurred about twenty-four hours previous to the examination. Ford testified at considerable length, telling a straightforward story. He never suspected an intimacy between his wife and Salmon until three weeks ago. She was always home when as returned from work, and her absence Saturday night aroused his suspicion. He concluded that she had gone to Plymouth. He stayed in the house that night, and first heard of the murder from the officers the next morning. It is said that while Salmon was wheeling the truck containing the remains of his victim through the streets, several dogs were following, evidently attracted by the contents. Salmon was obliged to stop a number of times and drive them away. A hearing will be given to the prisoner at the conclusion of the Coroner's inquest. Mrs. Ruddy is slowly improving. It is not decided when the funeral of the victim will take place, as further examination of Mrs. Ford's body will be made.

Attempted Riot.

BIRMINGHAM, Ala., Nov. 27. Hearing of threats of lawlessness by negroes in this city, the Mayor last night ordered out two militia companies to protect the town. The negroes are much incensed, and threaten retaliation for the lynching of Lewis Houston, who attempted to outrage a white lady Thursday night. They charge that the jailor willingly surrendered his prisoner to the mob, and that the authorities neglected to take any measures to prevent the lynching. Early last night groups of negroes in different places were heard to threaten to burn the jail and the house of the woman who identified Lewis Houston as her assailant. By 10 o'clock the negroes had entirely disappeared from the streets, and none could be found at places where they usually congregate. No services were held at any of their churches. The military remained on duty all night. A mounted Gatling gun stands to day on one of the principal streets. The intended victim of Houston is a Northern lady recently come to live in the Senate, unless the Senate otherwise directs. This work has usually been done by a special committee.

An Unfortunate Town.

ALBANY, Wis., November 27. A fire this morning almost completely destroyed Albany, situated near the eastern line of Greene county. The flames were first discovered at 2 o'clock, and spread rapidly, sweeping before them every business building in the place, including the Postoffice and two newspaper offices. There were no adequate facilities for fighting fire, and it made such rapid headway that a number of people escaped from the buildings barely with their lives. A young man was killed by falling timbers, and five others fatally injured from the same cause. Weather at zero, and the suffering is great.

They Can Cut Bait But Not Fish.
CHEYENNE, Wyo., November 26. The recent issue of misrepresentations concerning woman's suffrage in Wyoming, in the *New York Times*, and reproduced in a leader with suitable editorial comments, has excited the most profound indignation. Woman's suffrage is regarded as a good thing here, and it would be death to any political aspirant to oppose it. All the leading and intelligent citizens favor the suffragists. Many do not favor women holding office, but every body is nearly a unit as regards their voting.

This morning fifteen armed men, belonging to the Weston force, arrived and are now on the ground, but have not attempted any violence. Fourteen of Weston's men who participated in the riot, were arrested and taken to Greensburg, where they are to be given a hearing this afternoon. Both claimants have been notified to keep off the grounds. The feeling is intense, and in favor of the Pennsylvania Co.

Chances for the Speakership.

SAN FRANCISCO, November 27. The Chronicle's Washington special states: Randall says that four of the California delegation in the House will vote for him for Speaker, and that the other two, via Rosserans and Tully, will vote for Carlisle. Sumner and Budd were expected here to-day, but had not reported up to a late hour to-night. Carlisle said he would have the votes of the California delegation, if not more, and is more confident than ever of his election.

The illness of General Rosecrans' wife is so serious that her physicians do not think she can recover.

Planned for Contempt.

The Daily Exchange publishes a full account of the Tyler contempt proceedings in Judge Toohy's Court, this morning. George W. Tyler, attorney for Miss Hill in the Sharon-Hill case, sent a communication to the Grand Jury while the jury had them under consideration. Tyler was adjudged guilty of contempt of Court and fined \$500, or to be imprisoned 250 days in the county jail.

Further Reward.

TUCSON, A. T., November 27. The Governor of New Mexico has offered a reward of \$1,000 for each of the men who robbed the Southern Pacific train near Gage station. This makes the reward \$3,000 a head.

LeMerey & Fountain will get up a splendid Thanksgiving dinner, turkey, chicken and everything else will be served. They will also be prepared to furnish supper to all who attend the Junior Hose Company ball, Thanksgiving night.

Accident to a Freight Train.

Sunday last an accident happened to freight train No. 8, which left Virginia at 8 A. M. Half a mile beyond Silver City Switch, six empty flat-cars and three loaded ore dumps jumped the track and tumbled down the sides of a deep fill, toppling up on their sides. The track was torn out 200 or 300 yards, but the engine, not having been derailed, steamed on to the Mound House, whence it returned with a wrecking car and derrick. The work of replacing the wrecked cars was slow, and it took nine hours to finish clearing the track, holding the passenger train four hours.

The Red Sunsets.

Old residents of the coast say there have never before been seen such peculiar sunsets as those of the past week. For an hour after dark the western sky nearly to the zenith is tinged with a heavy red. It doubtless is some peculiar condition of the higher air which refracts or reflects the colors of brilliant sunsets far out on the Pacific.

Danger Ahead.

Governor Adams says he hopes to do well out of his Lander county mine. The only thing he is afraid of, is that in prospecting he may strike a "vacuum" of water. The GAZETTE hopes no such catastrophe may be experienced.

At Peavine.

General Clarke is at Peavine today, looking after his mining interests in that locality. He has great confidence in the future of that once lively camp.

Anchor Ice.

For two mornings past the river has been full of anchor ice, showing that the weather in the mountains has been very cold for this season.

A GAY OLD MAN.

Married for Over a Hundred Years and a Father at One Hundred and Two.

The grandfather of Dr. W. H. Peebles, an eminent physician of Georgia recently made the following statement which is seldom heard of. His grandfather, on his wife's side, Michael Brooks, was only 17 years old when he was married to a girl of 15. They lived happily together until his wife died at the advanced age of 100 years. After her death, at about the age of 104 years, he was remarried to a Miss Watson of Paulding County, she being about 49 years old at the time. Two sons were born to them and in the year 1807, he died at the advanced age of 118 years. He was a Virginian by birth, but was one of the earliest settlers of northwestern Georgia. He was a great trader with the Indians, and at one time owned nearly the whole of Paulding and adjacent counties, which he bought from them. His second wife is still living, which makes her at this time 70 years old.

The White House.

Abrams Bros. of the White House can supply any man who calls with just what he wants, and at prices which will suit the times and the man. From overalls and blouses up to frock coats and cassimere pantaloons. The house is supplied with everything, and it is well known that none but durable, guaranteed goods are sold there, while the rates of sale bring them within the range of the most moderate means. Underclothing of all sorts at prices to suit, and as none have ever been dissatisfied with purchases made at the White House, the proprietors are determined to maintain their reputation for low priced underclothing.

Another Bank Suit.

Wm. Thompson commenced a suit to-day in the District Court for \$51,000 against all the stockholders of the defunct Reno Savings Bank, on account of their unpaid subscriptions to the capital stock. This suit, together with Huffaker's and Lake's, makes the entire amount of the delinquency of unpaid subscriptions, taken in all the stockholders and will test the liability of each and every one for the full amount of his unpaid subscriptions. John F. Alexander is attorney for Thompson.

Thanksgiving Service.

Thanksgiving services will be held in Trinity Church Thursday morning at 11 o'clock. An offering will be made at the time for the poor of the parish. The Rector also solicits gifts and offerings of groceries and provisions for the same purpose, and requests that they be sent to the church on Thursday before the hour of service. He will take great pleasure in distributing them at the places where they are most needed.

Indian Troubles.

The Indians are assuming a very warlike attitude against the whites in Mason valley. A number of squaws have died recently very suddenly, and the Indians profess to believe that they were poisoned by a family named Misner. H. G. Parker, assistant Adjutant General to State Librarian Laughon, has been dispatched to the scene of the expected conflict, with arms and ammunition.

A Little Too Young.

A young couple from the north came in yesterday to be united in the holy bonds of matrimony. The young girl is only about 15 years of age, and therefore they did not succeed in finding anyone willing to buckle them together. They were very anxious to fix things, too, and undoubtedly think it hard to love. They are still in town and may make it yet.

No! Ye Sinners.

For the past two weeks large numbers of hunters have been engaged shooting ducks on the low grounds from the Truckee out south five or six miles from Glendale. They all seemed successful, some of them having bagged as many as 10 brace in a morning. The near approach of Thanksgiving will lend an impetus to the sport.

Reduction of Low Grade Ore.

The Ophir Mining Company has bought the Morgan mill on the Carson river for \$16,000, and will at once commence the reduction of low grade ore, to be taken from the upper levels of the Ophir mine.

An Important Decision.

An important decision arose in the District Court a few days ago. The firm of Newton Bros. & Co. of San Francisco brought suit against J. C. Hagerman. Soon after filing the complaint, J. C. Hagerman proceeded under the Insolvent Act, and was declared an insolvent, and an order staying all proceedings was entered in compliance with the provisions of the Insolvent Act. Newton Bros. & Co. filed their petition to remove the case from the District Court to the United States Circuit Court. Judge Boardman on the grounds that the former or of stay prohibited his making any further order in the case, refused the petition.

A Card.

William Pinniger tenders his best regards to his numerous friends, and the public generally, for the very liberal support accorded him in the past, and wishes to inform them that he has again effected a co-partnership with R. E. Queen, at the old stand, and, respectively, will conduct their respective businesses. The new firm have added largely to their stock of drugs, chemicals, patent medicines, wines and liquors for medical purposes, tonics and many articles, etc. The dispensary department, which makes a specialty of physicians' prescriptions and family recipes, bringing to them already large experience, the latest achievements of scientific pharmacy, and expert in filling all orders entrusted to them.

Giving Whisky to Indians.

Officer Nash last evening "flushed" a squaw and a white man in the vicinity of the depot building, squeezing a little comfort out of a bottle of bug juice. When the squaw's white lover saw the officer lie out down the street a lively pace, Nash commanded him to stop, and when his order was not obeyed he opened fire. Four shots from his pistol not only kept the fellow bounding down the road like a rabbit chased by a greyhound, but startled the whole lower part of town. After a lively race Dick was distanced.

A Cold Night.

The mercury dropped to 11° below zero at Carlin last night. When it comes to cold weather the belt of country between Carlin and Wells takes the medal. Nothing to compare with it this side of the Arctic regions.

Chevy Enough.

The Enterprise said hay was selling for three dollars a ton in Paradise valley. The Silver State says it is a mistake, that hay is worth six dollars a ton there.
